

Jan Darsey H. Caceres

WEB DEVELOPER

San Pablo City, Laguna | +63 981 722 9665 | jandarseycaceres@gmail.com

PROFESSIONAL SUMMARY

Fresh BS Information Technology graduate with hands-on experience building web-based systems using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. Developed two production web applications during an IT internship, owning front-end and database-driven back-end features from requirements through deployment.

TECHNICAL SKILLS

Front-End: HTML, CSS, JavaScript, Bootstrap

Back-End: PHP, MySQL

Programming Languages: Python, C++

Other: Git-ready workflow, debugging & testing, basic networking fundamentals (DNS, DHCP, IP addressing)

EXPERIENCE

Information Technology Intern (OJT)

Department of Education – San Pablo City Division | San Pablo City

- Developed and maintained the **Regional and Personnel Document Monitoring System**, taking ownership of the document-tracking module, which cut down manual document searching and gave staff real-time visibility into document status.
- Built the **Maintenance Operation Monitoring System** using HTML, CSS, JavaScript, PHP, and MySQL, handling both the front-end interface and the database schema, resulting in a streamlined process for logging and monitoring maintenance requests.
- Tested and debugged both systems end-to-end before rollout, owning quality checks and bug fixes, which ensured a stable launch with minimal post-deployment issues.
- Gathered requirements directly from the supervisor and staff and translated them into working features, resulting in systems that matched real office workflows and were adopted into daily use.

PROJECTS

VPN-Based Attendance & Electronic Voting System

- Built a facial-recognition attendance and electronic voting web app secured within a VPN, owning both the recognition-based check-in flow and the vote-logging logic, resulting in a secure, tamper-resistant voting process.

Regional and Personnel Document Monitoring System (RPDMS)

- Engineered the front-end and MySQL database structure for tracking official documents, owning the data schema design, which enabled accurate real-time status tracking for the DepEd Records Unit.

Maintenance Operation Monitoring System (GSU Monitoring Tool)

- Developed the reporting module for maintenance inspections end-to-end, owning report generation logic, which reduced manual report preparation time for the General Services Unit.

EDUCATION

Pamantasan ng Lungsod ng San Pablo — BS Information Technology, Major in Network Technology 2022 – 2026

STI San Pablo Campus — Senior High School, ICT Strand 2020 – 2022

CERTIFICATIONS & AWARDS

- Certified Cybersecurity Educator Professional (CCEP)
- Certified Red Team Operations Management (CRTOM)
- What is Software Development? — Simplilearn
- TESDA CSS NC II — Planned
- Certificate of Appreciation — System Developer, RPDMS & Maintenance Operation Monitoring System, DepEd San Pablo Division (2026)
